IPMAT ADVANCED

Start Class 12 with a clear advantage

Focused preparation for students who want to balance IPMAT readiness with strong Board exam preparation.

Explore the IPMAT Advanced programme

Made with GAMMA

THE RIGHT STARTING POINT

Why start right after Class 11?

01 More time, less pressure

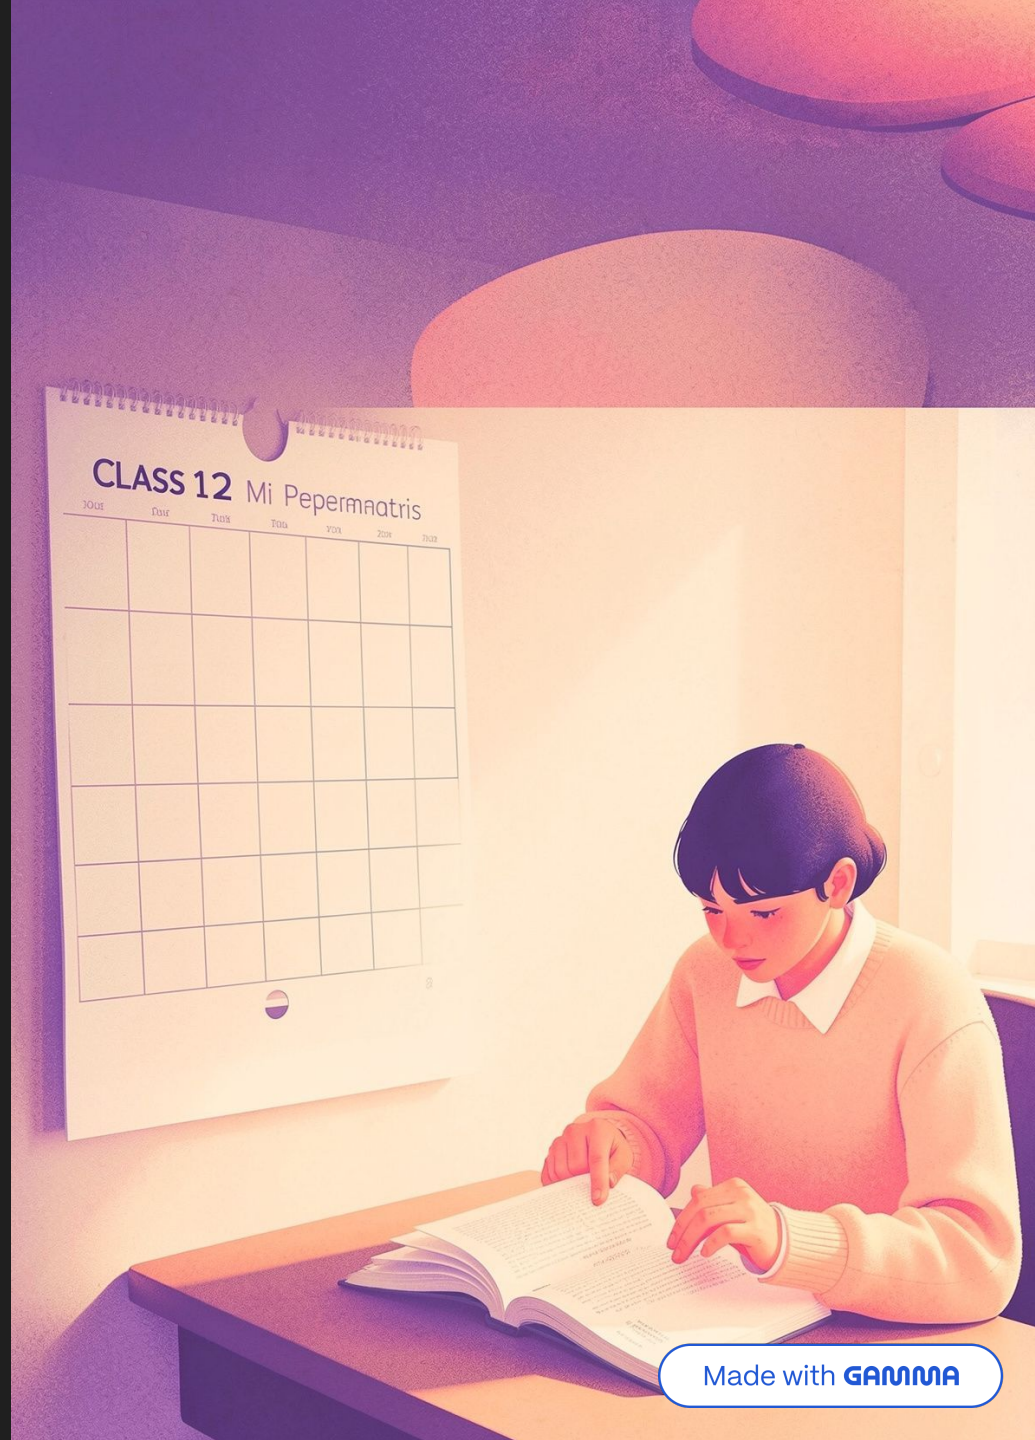

Class 12 brings Board exam pressure. Starting early gives you room to prepare steadily.

02 Practice that compounds

Learn concepts, practise regularly, improve speed and accuracy, then revise more than once.

03 Both goals stay visible

Keep IPMAT preparation moving without losing focus on school and Board examinations.

Made with GAMMA

FIT CHECK

Who is the programme for?

Entering Class 12

Students moving into Class 12 after their Class 11 final examinations.

Ready for focus

Students with decent fundamentals who now need exam-oriented preparation.

Aiming high

Aspirants targeting IIMs and other premier business schools.

Taking a gap year

Gap-year students who want an intensive preparation plan.

Made with GAMMA

THE COMPLETE PROFILE

Three areas build the complete IPMAT profile

Logical Reasoning

Understand patterns, relationships, and decision-making questions.

English Language

Strengthen vocabulary, reading ability, grammar, and comprehension.

Quantitative Techniques

Improve number sense, concepts, calculation speed, and problem-solving accuracy.

The three areas are trained together, so you learn to manage different question types under exam pressure.

Made with GAMMA

BEYOND THE CLASSROOM

Learning support continues beyond the classroom

Study material

High-quality material supports concept learning and regular practice.

Test support

The online portal offers sectional tests, topic tests, full-length mock examinations, and detailed performance analytics.

Personalised mentoring

Mentoring helps students identify weak areas and stay accountable.

Exam strategy

Strategy sessions help students manage time, sections, attempts, and accuracy.

A REPEATABLE SYSTEM

The preparation cycle is built for improvement

01

Cover

Complete the required syllabus with clear concepts and guided practice.

02

Test

Use topic and sectional tests to build comfort and speed.

03

Simulate

Take full-length mocks and experience real examination pressure.

04

Improve

Review analytics, correct mistakes, and repeat with a sharper strategy.

The goal is not to take one test and move on. It is to turn every test into the next improvement.

CHOOSE THE RIGHT PACE

Advanced and Foundation serve different needs

FOUNDATION

Build gradually

For: Class 11 students

Path: concepts → practice → mocks → revision

Build basics gradually and sustainably.

ADVANCED

Prepare intensively

For: Class 12 and gap-year students

Path: syllabus coverage → mocks → analysis → strategy

Move faster with an exam-focused plan.

Foundation builds the base. Advanced uses the time available to sharpen exam performance.

Made with GAMMA

THE ADVANCED DIFFERENCE

What makes Advanced more intensive?

Mocks from the beginning

Mocks are a major part of the programme early on, not something saved for the end.

More ownership

Students take greater responsibility for practice, analysis, and revision.

Consistency matters

Mentoring remains available, while self-discipline becomes especially important.

Use the remaining time well

The goal is to maximise performance before the IPMAT examination.

Made with GAMMA

PLAN AROUND THE YEAR

Plan your enrolment around the academic year

Summer holidays

Best time to enrol after the Class 11 final or Board examinations.

First Saturday each month

New students can join subsequent monthly batches.

First Saturday of April

The batch begins.

30 April

Course duration ends, with the examination held in May.

Made with GAMMA

YOUR CLASS 12 PLAN

Use Class 12 to prepare with purpose

Start early. Follow a consistent routine. Make every mock part of the learning process.

Analyse

Turn mistakes into specific action points.

Connect

Plan Board and IPMAT preparation together through revision and disciplined time management.

Choose Advanced

If your fundamentals are ready and your priority is to improve performance in the remaining time.
